

V6 & V8 Master Cylinder Cover

Installation Instructions

Congratulations! On your purchase of the V6 & V8 Master Cylinder Cover we, know that you will enjoy having this great product in your Camaro. We recommend if you are going to paint your cover to clean it with alcohol or something similar. This will remove any dirt, oils and finger prints that might be on it. If you have purchase one of our powder coated or mirrored covers

don't use any cleaner on it that might harm the appearance. We recommend adam's detail spray.

Time needed for this job is about 1-2mins. Please completely read these instructions prior to beginning. It will only take you a few minutes to read. Do not skip any of the steps.

Step One: To install your V6 & V8 Master Cylinder Cover for this piece normally we tell you to leave the vinyl coating on while you are installing it so, you don't scratch it or get finger prints on it. But for this piece we recommend that you remove it before install it since it would be easier. Just make sure that you don't scratch it while install it and use a microfiber towel to hold it with.

Step Two: Remove the cap on the master cylinder cover and clean the surrounding area with a towel. It's known that you will see some of the fluid steep a little bit around the cap opening.

Step Three: Start by putting the back end under the clip in the back of the master cylinder cover and then lowering the front down over the cap opening and then adjusting to fit around the cap.

Step Four: Replace the cap on the master cylinder.

Step Five: Congratulations! You are finish. Enjoy your new V6 & V8 Master Cylinder Cover

Cleaning Instructions

To maintain the appearance, be sure to only use a polish suitable for mirrored stainless steel and only apply polish with a 100% microfiber cloth or shammy. Remember, mirrored stainless steel scratches easily. So be sure to be careful when cleaning it.

Note: There may be some lines on the underside from handling and, making it which you will not see once you install it in your Camaro. This product will come with protecting vinyl just simply pull off the protective vinyl to expose the beautiful mirrored finish. There may be some residue from where the laser cut through the vinyl which you can remove with 100% alcohol and a cotton pad.
